School/Teacher Name

School/Teacher Name: bmslibrary

Access Key

Access Key: lost583

Your Name

Your Name: your real name

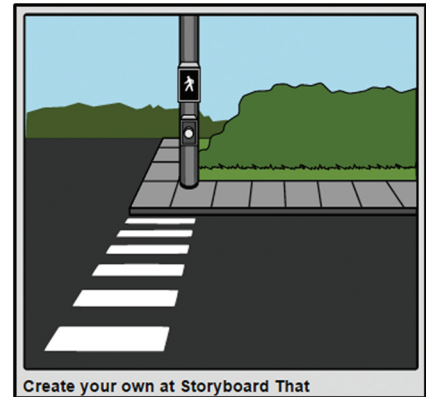

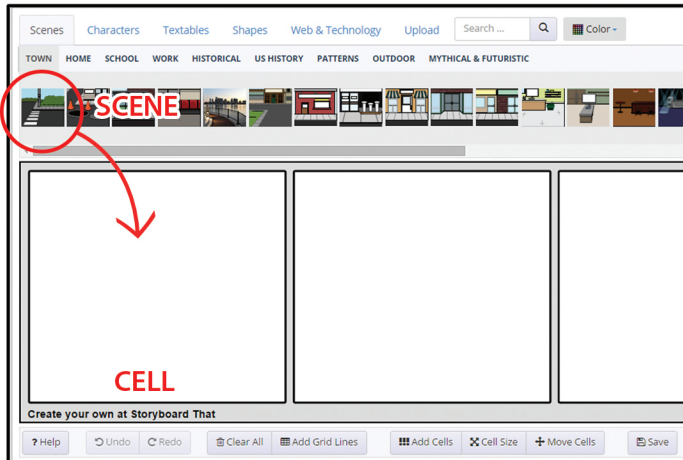

Join Classroom »

- 6) After your account is created, scroll down to the bottom of the page and click on ***Manage My Classes***. Select the correct grade level and teacher name.
Use the Class Code: **bison**

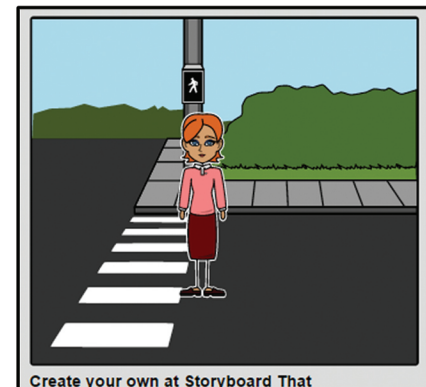

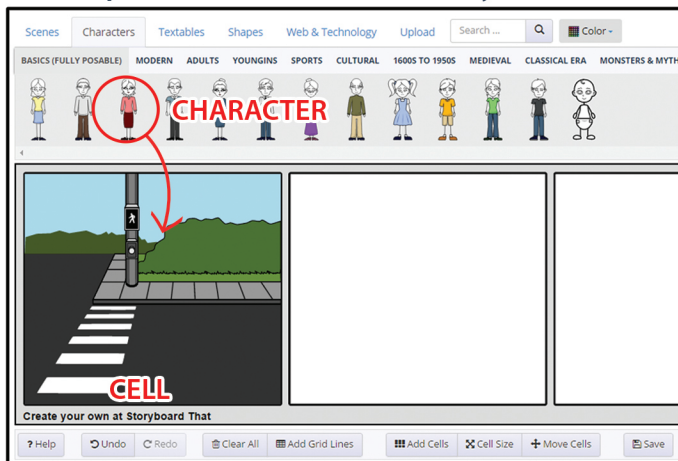

Using this guide you will quickly learn how to add scenes, characters, text and save. Let's get started!

1. Click on "Create a Storyboard"

- Under **TOWN** click and drag the first **SCENE** into the first **CELL** of the storyboard. (Like the example below)

2. Click on the **CHARACTERS** tab located next to the scenes tab. Select a **CHARACTER** of your choosing, click, drag and drop them into the same **CELL** as your scene. (You can select colors and poses after being added.)

3. Click on the **TEXTABLES** tab and select a **WORD BUBBLE**. Click, drag and drop into the first **CELL** and place it next to your character. Type "Hello!" (You can resize the bubble by placing your cursor on the circles at the corners of the text bubble and dragging it for smaller or out for bigger)

Click on the "Save" button
